# Who is Ariston Tek, Inc.?

We are a diverse group of individuals with a passion for excellence! From our top executives, to our recruiters, business development managers and administrative support, we have a combined IT expertise in systems management, project management, development, design, architecture and programming. Using our backbone of IT knowledge and expertise allows us to perfectly match our consultant skills to our client needs. While having IT expertise is terrific, it's even better when it can be applied to several industries!

## Our specialties include:

- Technology
- Finance & Accounting
- Capital Markets
- Media, Cable, Telecom
- Pharmaceutical and Clinical Research
- Healthcare
- Government Solutions
- Outsourcing Options

#### **Ariston Tek Inc offers you:**

Opportunities to work with the most exciting companies in the industry. The chance to learn new technologies and innovative techniques while working at the client site. Financial rewards that just keep on coming. Competitive compensation which includes one of the industry's finest benefits packages that start on your very first day of employment. Remarketing services which help you find and transition to subsequent assignments. Confidence that you are working with the largest pure-play IT staffing company in US. Your preferences influence your assignments, locations, and technical environments. Immigration assistance that smoothes the process of obtaining work authorizations and green cards.

#### **Give us your burden**

Finding the right staffing resource, at the right time and within the right budget is time consuming, stressful, and simply tiring. Join the growing number of companies who entrust their critical staffing requirements to Ariston Tek.

#### **We work with your needs:**

- Contract, either short or long-term
- Contract-to-hire
- Direct hire
- Executive search

#### **Your benefits**

- You continue to focus on your core business.
- We assume the time consuming task of searching for both active and passive candidates.
- We technically evaluate, screen and interview candidates based on your requirements.
- You review a handful of candidate resumes.

### **Our Process:**

Your company, your department, and your staffing requirements are uniquely yours. You understand your needs better than anyone. When developing a partnership, our goal is to understand your requirements as well as you do.

- We ask questions to fully understand your technical and "soft" skill needs.
- Depending on your needs, we work directly with hiring managers, with HR, or a combination of the two.
- Using our well developed database of candidates, personal contacts, referrals, and job boards, we begin searching for active and passive candidates. Passive candidates are individuals who are satisfied with their current positions but also open to new opportunities.
- We thoroughly screen and qualify candidates based on your requirements.

### **Managed Solutions:**

Ariston Tek's "Managed Solutions" focuses on technology, client delivery, and recruiting capabilities to deliver a suite of highly specialized services and solutions. These distinct practices support our clients in the fulfillment of a wide range of discrete, mission critical projects and ongoing business requirements. Through the intelligent application of world class technology talent, a standardized delivery framework and proven project management methodologies, Ariston Tek's Managed Solutions consistently deliver successful outcomes and demonstrable value for our clients.

### **Scalability:**

Ariston Tek solutions are completely scalable and designed to deliver consistently while maintaining the flexibility to meet each client's individual business requirements, industry characteristics and organizational culture.

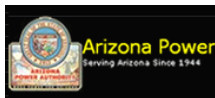

### **Cost effective options:**

Ariston Tek teams are equally experienced and successful in delivering quality, cost effective solutions whether working directly with client management and resources or independently on-site or at one of our Technology Centers. Our Managed Solutions teams possess a broad spectrum of experience ranging from managing existing projects to developing turnkey systems.

### **Flexibility:**

Ariston Tek's wide range of services and flexible yet well-defined delivery model allow our Managed Solutions teams to provide clients with solutions that both comprehensively address business requirements and optimize return on technology investments.
